

RICHLAWN SOILWORX 4-6-2

Manufactured by:
 Richlawn Turf Food, LLC
 15121 WCR 32
 Platteville, CO 80651
 Net Weight 50 lbs
 (22.68 kg)

WITH BIOCHAR, MYCORRHIZAE, AND HUMATES

Richlawn Soilworx is an agency-approved natural, organic fertilizer containing slow-release nitrogen and blended biochar, mycorrhizae, and humates. Richlawn Soilworx restores and builds depleted soils with essential nutrients, beneficial fungal biomass, and organic matter to build a sustainable environment to quickly establish vegetation.

BENEFITS

- Great source of both macro- and micro-nutrients essential to plant growth
- Slow release of nutrients allows plants to capture full nutrient value
- Promotes more robust plant root structure and helps choke out weeds
- Conditions soils by adding essential organic matter
- Sterilized and free of weed seeds
- Biochar is a powerful soil enhancer which captures carbon, retains moisture, improves fertility, and promotes microbial activity
- Mycorrhizae is a natural soil fungus that increases the plant's root structure to better absorb and retain moisture and nutrients. A more robust plant root structure leads to better erosion control
- Humates add a concentrated form of organic material to the soil promoting soil microbiology, water-holding capacity, and improving the soil's structure

GUARANTEED ANALYSIS

Total Nitrogen(N)	4.0%
• 3.24% Water Insoluble Organic Nitrogen*	
• 0.58% Water Soluble Organic Nitrogen	
Available Phosphate (P ₂ O ₅)	6.0%
Soluble Potash (K ₂ O)	2.0%
Calcium (Ca).....	10.0%

Plant Nutrient Sources: Dried Poultry Manure, Bone Meal, Feather Meal, and Sulfate of Potash

*3.42% Water Insoluble Nitrogen from Dried Poultry Manure, Bone Meal, and Feather Meal

Non-Plant Food Ingredients:

Biochar	5.0%
Endo Mycorrhizae	30,000
Propagules	
• 7500 Propagules Glomus Mosseae	
• 7500 Propagules Glomus Entunicatum	
• 7500 Propagules Glomus Intradices	
• 7500 Propagules Glomus Aggregatum	
Humates.....	9.0%
