

\* Shown with optional BDD-30 Blue Dye Dispenser. (BDD-30 freshwater, overflow and drain connections omitted for clarity)

\* Shown with optional PT Series pressure tank. (The pressure tank can be installed anywhere on the greywater OUT line by way of a TEE fitting. This will reduce pump starts and energy costs.)

The content of this Data Sheet is based upon the latest information available at the time of printing and is aimed at providing a general introduction to Greyster Systems Inc. products. No warranty or representation is hereby made by Greyster Systems Inc. as to the accuracy of said information. Greyster Systems Inc. is continually updating and improving its products and reserves the right to amend, discontinue, alter or change specifications and prices without prior notice.
